

Health Metric Tracker - Annotated Wireframes

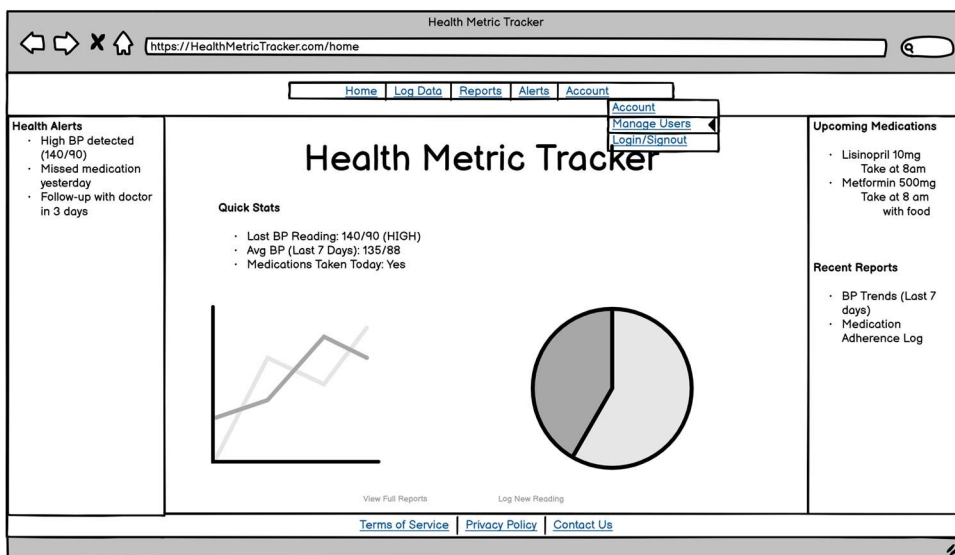

Login

This is the login screen where users enter their credentials. If incorrect, the 'Wrong Login' popup appears.

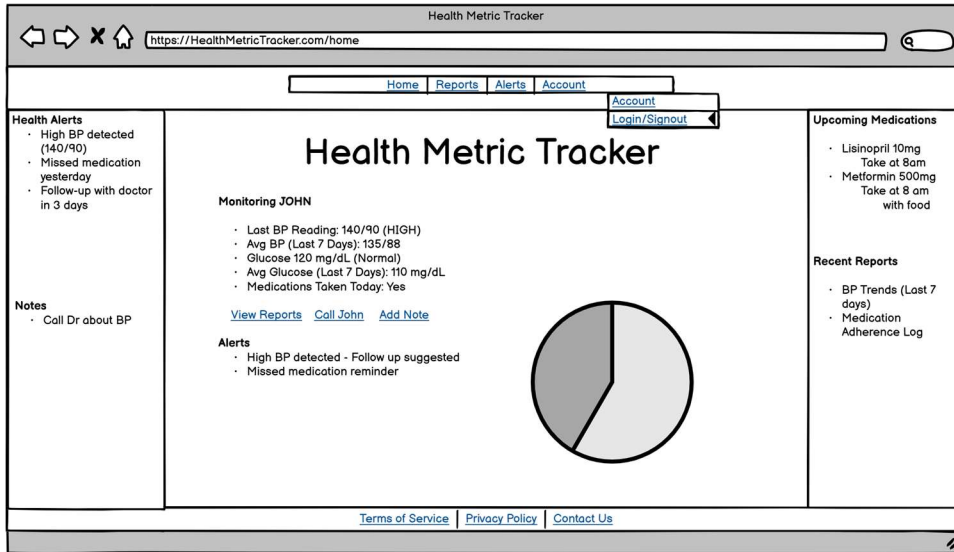

Home (John)

John's dashboard view showing recent health alerts, BP trends, and medication adherence.

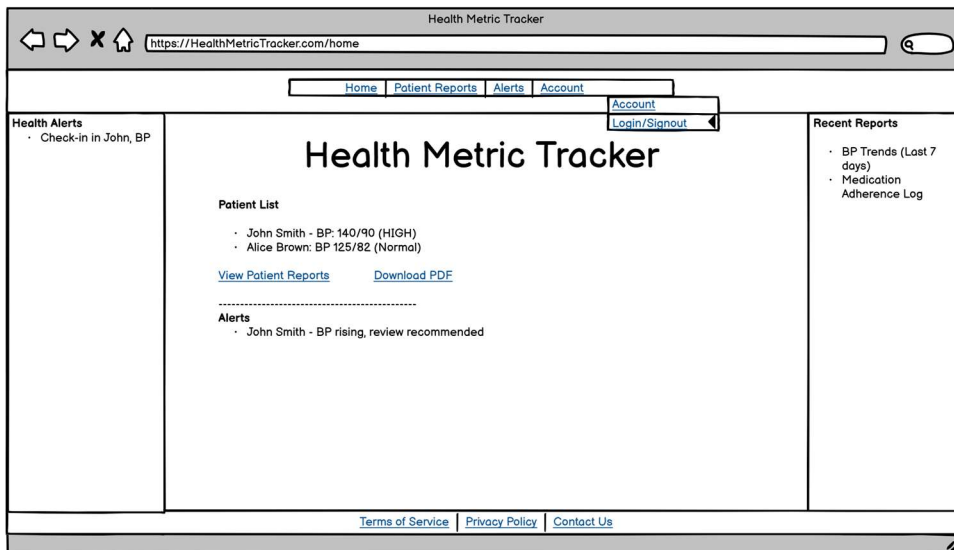

Home (Sarah)

Sarah's dashboard view, including options to 'Call John' and 'Add Note'.

Home (Patel)

Dr. Patel's dashboard view, showing patient reports and trends.

Log Data

The data logging screen where users can input BP, glucose, and weight.

The screenshot shows the 'Log Health Data' screen of the Health Metric Tracker. The browser address bar displays 'https://HealthMetricTracker.com/logdata'. The navigation menu includes 'Home', 'Log Data', 'Reports', 'Alerts', and 'Account'. The 'Account' dropdown menu is open, showing 'Manage Users' and 'Login/Signout'. The main content area is titled 'Log Health Data' and contains sections for 'Health Metrics' (with input fields for BP, Glucose, and Weight, and an 'Add Health Metric' button), 'Medications' (with input fields for Lisinopril and Metformin, and an 'Add Medication' button), and a 'High BP Detected! (Alert State)' section with 'Set Reminder' and 'View Trends' links. The left sidebar shows 'Health Alerts' (High BP detected, Missed medication, Follow-up with doctor) and 'Upcoming Medications' (Lisinopril 10mg, Metformin 500mg). The right sidebar shows 'Recent Reports' (BP Trends, Medication Adherence Log). The footer contains 'Terms of Service', 'Privacy Policy', and 'Contact Us' links.

Reports (Patel)

Dr. Patel's reports page, where patient data is reviewed and exported.

The screenshot shows the 'Patient Reports' screen of the Health Metric Tracker. The browser address bar displays 'https://HealthMetricTracker.com/reports'. The navigation menu includes 'Home', 'Patient Reports', 'Alerts', and 'Account'. The 'Account' dropdown menu is open, showing 'Login/Signout'. The main content area is titled 'Patient Reports' and contains a 'Generate Report' section with 'Select Date Range', 'Select Variables', and 'Select Patients' (with a 'Select Patient' dropdown). Below this are 'Generate Report' and 'Export Report' buttons. The screen displays two line graphs: 'BP Trend compared to norm' and 'Glucose Trend compared to norm'. The left sidebar shows 'Health Alerts' (Check-in in John, BP) and 'Recent Reports' (BP Trends, Medication Adherence Log). The right sidebar shows 'Recent Reports' (BP Trends, Medication Adherence Log). The footer contains 'Terms of Service', 'Privacy Policy', and 'Contact Us' links.

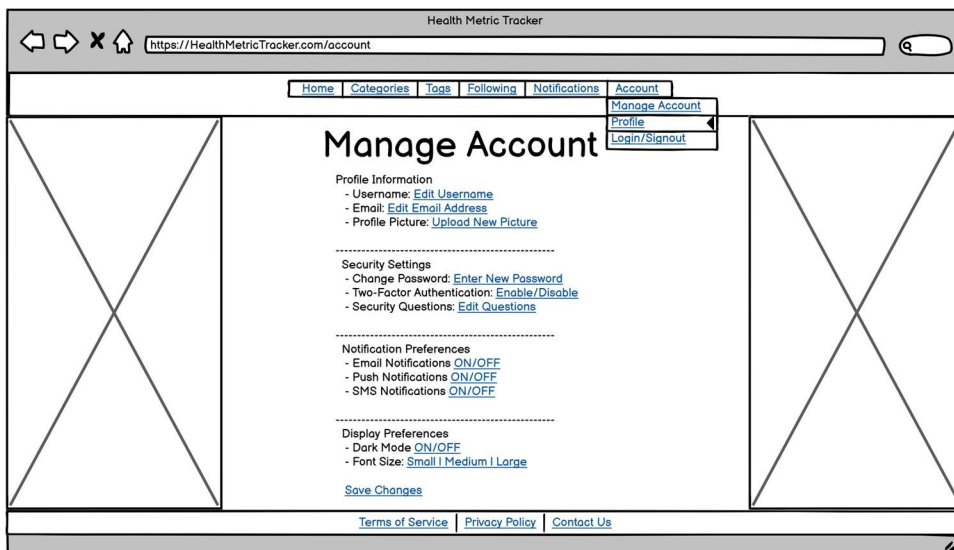

Reports (John)

John's individual report screen, showing BP trends and medication history.

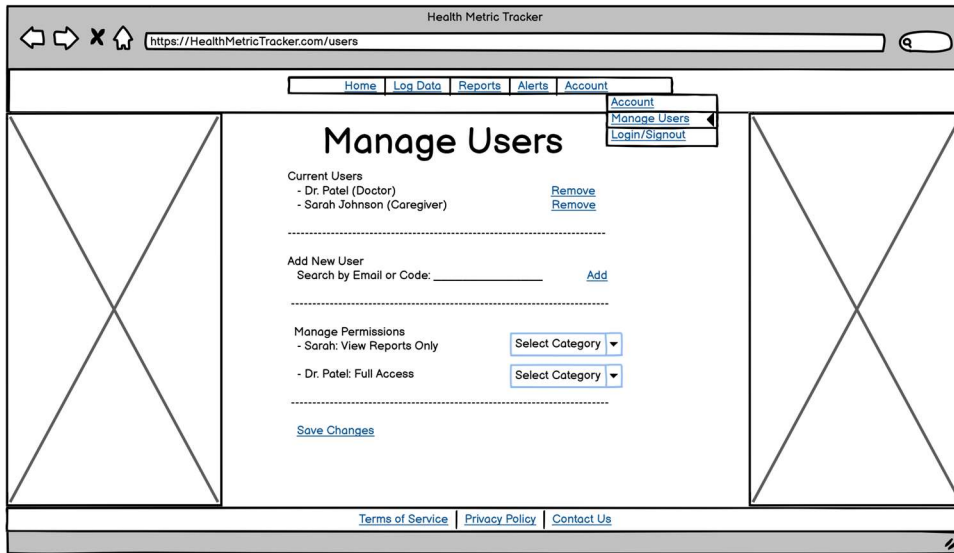

Account

User profile settings, including security and notification preferences.

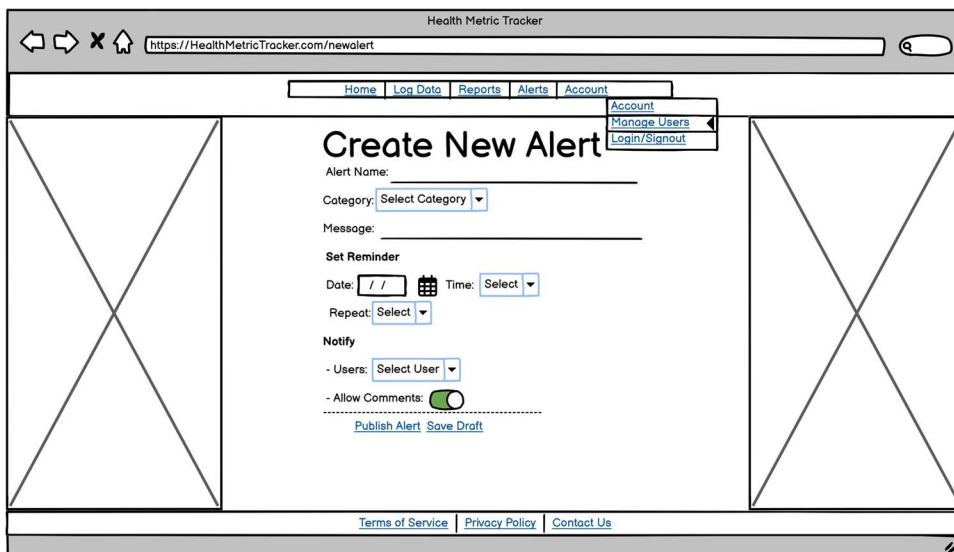

Manage Users

Admin screen for managing user accounts.

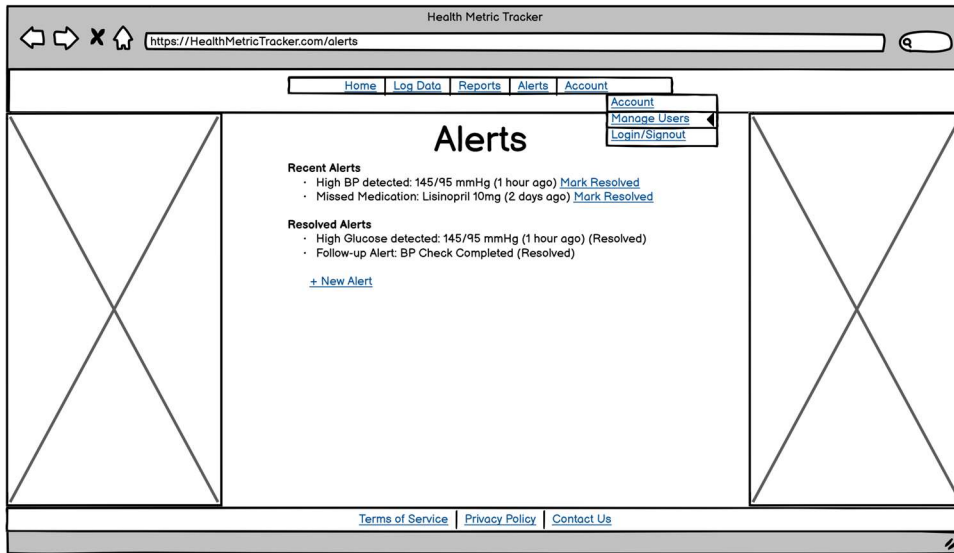

Alerts

This screen displays active and resolved alerts for abnormal health metrics.

Create New Alert

A screen for manually creating a new alert.

Add Note

Popup window where Sarah can add a note regarding John's health.

The "Add Note" popup window features a title bar with the text "Add Note". Below the title bar is a large text input area with the placeholder text "Input Text....". At the bottom right of the window are two buttons: "Cancel" and "Save".

Note Added Successfully

A confirmation popup appears when a note is successfully saved.

Note Added Successfully
Note Has Been Added Successfully.
Okay

Wrong Login

This popup appears when a user enters an incorrect email or password.

Success! Your Data Has Been Saved.
Okay

Save Data Confirmation

A confirmation popup appears after successfully saving health data.

Save Data
Data Has Been Saved Successfully.
Okay

Alert Resolved

A confirmation popup appears after resolving an alert.

Alert Resolved
<p>This Alert Has Been Marked As Resolved</p> <p>Okay</p>

Reminder Created

A popup appears confirming that a reminder has been set successfully.

Reminder Created
<p>Reminder Has Been Created.</p> <p>Okay</p>

Assign Caregiver - STRETCH

This stretch feature screen allows an admin user to assign a caregiver to a patient. The admin selects a caregiver and a patient from dropdown lists, then clicks 'Assign'. A confirmation message appears once the assignment is saved.

- Header: 'Assign Caregiver to Patient'
- Dropdown 1: Select Caregiver
- Dropdown 2: Select Patient
- Button: 'Assign'
- Success Message (after assignment): 'Caregiver assigned successfully.'

The screenshot shows a web browser window titled 'Health Metric Tracker' with the URL 'https://HealthMetricTracker.com/assigncaregiver'. The page has a navigation bar with links: Home, Log Data, Reports, Alerts, and Account. The 'Account' dropdown menu is open, showing options: Account, Manage Users, and Login/Signout. The main content area is titled 'Assign Caregiver' and contains two dropdown menus: 'Assign Caregiver: Select Caregiver' and 'Select Patient: Select Caregiver'. Below these is a blue 'ASSIGN' button. The page is flanked by two large placeholder boxes with 'X' marks. The footer contains links for Terms of Service, Privacy Policy, and Contact Us.

The screenshot shows a modal dialog box with a title bar 'Caregiver Assigned'. The main text inside the dialog reads 'Caregiver Has Been Assigned.' Below the text is a single button labeled 'Okay'.

Dropdown 1: "Select a caregiver from available list."

Dropdown 2: "Select a patient to assign."

Assign Button: "Click to assign selected caregiver to patient."

Confirmation Message: "Displays success message after assignment is saved."
